MT\_Dillon\_RMP@blm.gov

You are receiving this notice because you are on the mailing list for the Resource Management Plan (RMP) being developed by the Bureau of Land Management's Dillon Field Office (BLM). In accordance with the Wild and Scenic Rivers Act and as part of the resource management planning process, the Dillon Field Office is completing an inventory and evaluation of rivers flowing through BLM-administered lands in the Dillon planning area. This inventory and evaluation results in eligibility findings, which is the first step in the Wild and Scenic River evaluation process. These findings will be documented in the Draft Eligibility Report, which will be printed soon. The report will identify rivers which should be considered eligible for further study (called the suitability study) as the Dillon Resource Management Plan (RMP) is developed.

To be considered eligible for further consideration in the RMP, a river must be free-flowing and contain at least one value considered outstandingly remarkable. The report will include the eligibility criteria and the conclusions reached by the planning team. It also discusses the general management that will be applied to eligible streams.

**IF YOU WANT TO RECEIVE A COPY OF THIS REPORT, PLEASE CONTACT ANDREA WIGGINS AT THE DILLON FIELD OFFICE AND GET YOUR NAME ON THE WILD AND SCENIC RIVER LIST.** Andrea can be reached at (406) 683-8022, or you can call the RMP toll-free number at 1-877-521-2889. The report is scheduled for release the week of March 4, and we anticipate comments will be accepted through April 30, 2002.

For further information on the Dillon RMP or the Wild and Scenic River process, contact Renee Johnson, Dillon RMP Project Leader, at (406) 683-8016.
