

Species	In Range (yes/no) 1	Habitat Present (yes/no) 2	Effects Determination (brief rationale) 3
Swift fox	Y	N	
Townsend's big-eared bat	Y	N	
White-tailed prairie dog	N		
Woodland caribou	N		
REPTILES and AMPHIBIANS			
Snapping turtle	Y	Y	Avoid impacts to river/channel banks May-Sept
Spiny softshell turtle	Y	Y	
Canadian toad	N		
Coeur d'Alene salamander	N		
Spotted frog	?		
Tailed frog	N		
Wood frog	?		
FISH			
Arctic grayling	N		
Blue sucker	?		
Bull trout	N		
Northern redbelly X Finescale dace	?		
Paddlefish	N		
Pearl dace	?		
Shortnose gar	N		
Sicklefin chub	N		
Sturgeon chub	N		
Westslope cutthroat trout	N		
Yellowstone cutthroat trout	Y	Y	

- 1) If project is not within the range of the species no determination of habitat presence is needed.
- 2) If Habitat is not present no effects determination is needed.
- 3) Detailed Effects Determination is provided in the narrative of Environmental Assessment
